MISSION STATEMENT:
The Robert H. Lurie Comprehensive Cancer Center of Northwestern University is committed to being a national leader in the battle to overcome cancer.

To this end, the Lurie Cancer Center is dedicated to:
* Scientific discovery
* Advancing medical knowledge
* Providing compassionate state-of-the-art cancer care
* Training the next generation of clinicians and scientists

The Patient & Family Advisory Board Program is based on the principles of Patient- and Family-Centered Care, which is an approach to the planning, delivery, and evaluation of health care that is grounded in mutually beneficial partnerships among patients, families and health care providers. It is founded on the understanding that the family plays a vital role in ensuring the health and well-being of patients of all ages. In Patient- and Family-Centered Care, patients and families define their “family” and determine how they will participate in care and decision-making.

The 4 principles of Patient- and Family-Centered Care:

✓ Dignity & Respect
Health care providers listen to and honor patient and family perspectives and choices. Patient and family knowledge, values, beliefs and cultural backgrounds are incorporated into care planning and decision-making.

✓ Information Sharing
Health care providers communicate and share complete and unbiased information with patients
and families in ways that are affirming and useful. Patients and families receive timely, complete, accurate information in order to effectively participate in care and decision-making.

✓ **Participation**
   Patients and families are encouraged and supported in participating in care and decision-making at the level they choose.

✓ **Collaboration**
   Patients, families and providers collaborate in policy and program development, implementation and assessment; in health care facility design; and in professional education, as well as in the delivery of care.

**Board Requirements**
- Members maintain active status by attending at least two of the three meetings annually.
- Members may be asked to review between one and three clinical trials annually.
- Members are asked to volunteer for one additional program each year (Survivorship Panels, Cancer Connections, Survivors’ Walk, etc.)

Name: ____________________________________________________________

Address: __________________________________________________________

City/State/Zip Code: ________________________________________________

Please indicate preferred phone number: □ Cell □ Home □ Work
Telephone number(s):

Work _____ - ____ - _______  Home _____ - ____ - _______  Cell _____ - ____ - _______

E-mail address: ____________________________________________________

Birthday: _________________________________________________________

Please indicate if you are:
□ Adult patient currently in treatment  □ Family member of adult patient currently in treatment
□ Adult cancer survivor  □ Family member of adult cancer survivor
□ Bereaved family member  □ Childhood Cancer Survivor
Patient or Family member’s Diagnosis [Type of cancer] _______________________________________

Age at diagnosis: _____________

Year of original diagnosis: _________________________

Year treatment completed (if applicable): __________________

Who is/was your Physician?  ______________________________________________________

What did your/your family member’s care include? [Check all that apply]
☐ Chemotherapy/Other drug Therapy  ☐ Clinical Trial
☐ Radiation Therapy  ☐ Surgery

If you are a family member, what is your relationship to patient?
